Data analytics

This script summarises the data analytical steps for the ICNS2023 paper.

```
[Opensky Network] → [Data Extraction] → [Arrival Trajectories] → <Decision> → [Result one]
                                                                            → [Result two]
```
